

THE LATEST FIGURES.
Harrison Carries Indiana by
a Small Plurality.

CALIFORNIA YET IN DOUBT

Possibility that the Republicans Will
Control the Next Congress.

CONNECTICUT IS DEMOCRATIC.

Harrison's Plurality Increasing in
New York State.

IT IS NOW OVER 11,000,

Gov. Hill Re-Elected by Close to Nine-
teen Thousand Plurality.

CLEVELAND'S CHANCES ALL GONE

It may take the official count in several doubtful districts to determine the political complexion of the House of Representatives in the Fifty-first Congress. The Republicans made a surprising sweep of the city of St. Louis and carried three Democratic districts. They have carried, apparently, three close districts in Michigan now represented by Democrats, and have captured the districts of Weaver and Anderson (Democrats) in Iowa. John Baker (Republican) is beaten in Morrison's district. The Republicans have carried the Cleveland districts in Ohio and two Minnesota districts now represented by Democrats. One Republican Congressman has been gained in Tennessee. The Democrats have gained four or five districts in Virginia. There are enough doubtful districts yet unreported in various States to turn the majority five or six either way. The New York delegation is unchanged. The Republicans elect Stevens over Bacon in the Orange district, and the Democrats Wiley over Crowley in the Niagara district.

At midnight last night the Democratic State Committee of Indiana conceded a Republican plurality of from 1,000 to 1,500 in the State, and the Republican State Committee claimed from \$3,000 to \$4,000. The Sun's returns from the separate counties give Harrison 1,016 plurality in the State, and this was likely to be increased by complete returns from counties that were partly estimated. The preëdicted returns of the Associated Press give Harrison, for 840 precincts, nearly half the State, a net increase of about 6,000 over Blaine's vote, nearly winning out the Democratic majority of four years ago. There is scarcely a doubt that Harrison has carried the State, and therefore has fifteen more Electoral votes than were conceded to him yesterday.

The Democrats have gained control of both branches of the Legislature, and have probably elected nine of the thirteen Congressmen. Of the other doubtful States, both sides are claiming West Virginia, but it looks as though the Democrats had carried it by a small plurality. However, the back-country districts yet to be heard from may make the Republican claims good.

Colorado is not longer in doubt, the Republicans having carried it by 15,000.

Both sides profess to believe that they have carried California, but the chances still are that the Republican claim is on the better foundation.

Every fresh return from Michigan shows a Republican gain, and the plurality for Harrison may reach 18,000.

What Illinois has never been in doubt is attested by the fact that she gives 20,000 plurality for Harrison. Nobody but that rainbow statesman thought that the Democrats had a chance there.

Connecticut is surely Democratic. Revised and trustworthy figures from nearly every polling place showing a plurality of 494.

The scattering and revised returns from New York State all favor Harrison. The most important revision to be made in the Sun's table is the shifting of Seneca county from the Democratic to the Republican side. Troy city gave great Democratic gains, but the countrymen who live without the Trojan walls kept up the Republican gains shown everywhere else throughout the rural districts. Mr. Harrison's plurality in New York State is about 11,000.

There were gains for David Bennett Hill, too, and the latest figures indicate that he has between 18,000 and 19,000 plurality.

NEW YORK STATE.

Pluralities for President.

1884—1888.
